

June 11, 1942

Mr. James R. Steele  
152 N. E. 44th Avenue  
Portland, Oregon

Dear Mr. Steele:

Since receiving your letter of June 2nd, the writer has made an investigation of the treatment accorded your father in the Oregon State Hospital and has reason to feel that he was shown every attention possible.

We are attaching copy of a written report from Dr. R. N. Smith who was the physician attending your father prior to his death. You will notice that he explains your father's condition was not particularly more serious the few days before his death than at the time you were notified.

We trust that this letter will explain the matter to your satisfaction.

Yours very truly,

Secretary
